INTRODUCING THE NEW IMPRES™ 2 IN-VEHICLE CHARGING CRADLE FOR MOTOTRBO™ ION

MOTOTRBO ION IN-VEHICLE CHARGING CRADLE

Convenient and accessible, the IMPRES 2 Charging Cradle allows you to communicate efficiently, while your MOTOTRBO Ion radio is securely mounted in your vehicle. The cradle is mounted using a compatible RAM mount (comes with RAM Mounts' Drill Down Adapter) enabling safer driving. This charging cradle was designed to give you full access to radio functions including the front screen, camera, push-to-talk, buttons and knobs.

The IMPRES 2 Charging Cradle allows you to charge your battery separately or when fitted to the radio and the attachable strap will securely hold the radio or battery in place during charging. The cradle is also fitted with an LED charging indicator that will turn on when the battery is charging.
